- Bootstrap
- Entity Framework
- Node Js
- Express Js
- MongoDB
- Npm & Yarn

Tools & Concepts

- Responsive Design
- Object Oriented Programming
- RESTful API Design
- MVC Architecture
- Code First Database
- Git Version Control

Projects

MyHabbits

<https://github.com/ij2872/MyHabbits>

A simple .Net project to track the amount of time a user has spent on a task.

- **C# ASP.NET** MVC Framework
- Code-First Database design
- **Ajax** request used to create, update, and delete tasks
- Updated Database using **SQL Server** 2016

Mp3Convert

<https://github.com/ij2872/mp3Convert/>

This tool was created to speed up the process of converting large WAV files to compressed mp3 files. Mp3Convert converts each .WAV file in the selected folder using the FFMPEG library, then saves the converted mp3's to another folder.

React Calculator

ij2872.github.io/web_portf/#/calculator

Online web calculator app created using **React Js** and CSS Grid area for the layout.

Portfolio Website

ij2872.github.io/web_portf/

Built using **React & React-Router**. The website is built from scratch with a responsive design using CSS Flexbox & Grid Layouts. **Webpack** and **Babel** were used to bundle and compile React, ES6 JavaScript, and to allow for CSS injection in JavaScript.
